The Campos Foundation's mission is to elevate under-represented minority and female students through STEM education initiatives. Since 2015 we have impacted over 4000 students every year through the following:

Summer Bridge Programs & Scholarships

COLLEGIATE & UNIVERSITY SUPPORT

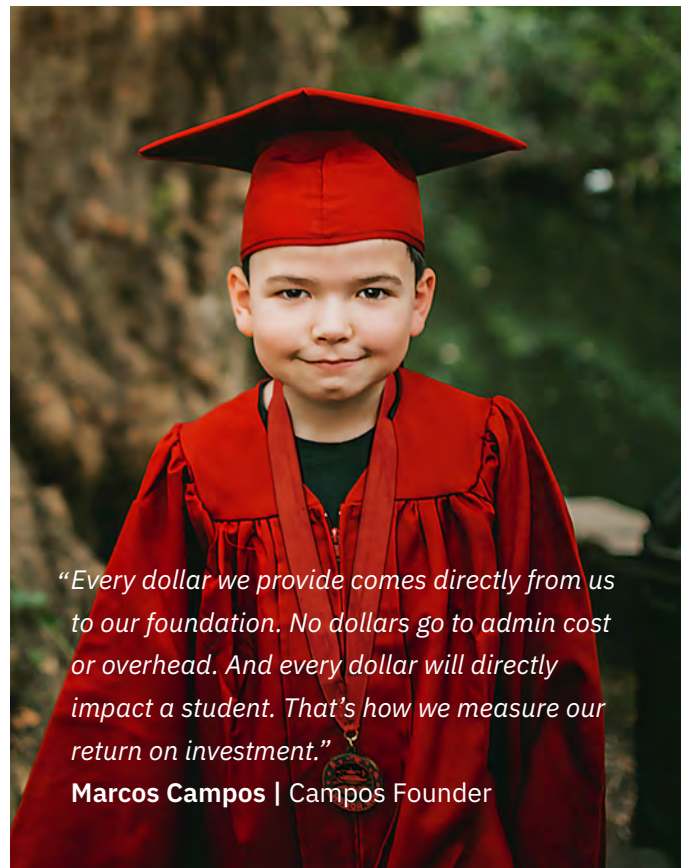

- ♥ EngiNearMe @ CU Boulder
- ♥ Envision @ CSU
- ♥ Colorado School of Mines
- ♥ Syracuse University

Campos EPC SmartLabs

PRIMARY & SECONDARY EDUCATION SUPPORT

- ♥ Beach Court Elementary
- ♥ Bear Valley International
- ♥ Bill Roberts K8
- ♥ Denver Academy Elementary
- ♥ Denver Academy Middle School
- ♥ Girl's Athletic Leadership HS
- ♥ Lake Middle School
- ♥ Sabin World Elementary
- ♥ Samuels Elementary
- ♥ St. Joseph Catholic School

In addition to the Foundation's goal of financial support, we also provide direct access to our employees that has resulted in countless hours of assistance.

"Every dollar we provide comes directly from us to our foundation. No dollars go to admin cost or overhead. And every dollar will directly impact a student. That's how we measure our return on investment."

Marcos Campos | Campos Founder
